<b>Figure 9.12</b>	Backscatter X-ray.	128

## About the Author

Dr. Arthur G. Arway is a recognized leader in domestic and international logistics, trade, and transportation security. He provides significant experiential horsepower to both the managerial and practical sides of supply chain security.

He brings to the table 27-plus years of supply chain, cargo security, law enforcement, investigative, human resource, and corporate security experience.

He has been responsible for domestic and international protection programs in the Americas and other global regions for client material, operations, transportation, freight, cargo, parcel and lightweight industry, government supply chain program compliance, TSA cargo security programs, client security interface, sales and marketing support and risk mitigation for corporate legal, risk management, and HR business units.

His supply chain security career has placed him, among other noteworthy positions, deeply integrated into a major international logistic organization. He is an advisor to senior management as well as governmental security agencies.

Dr. Arway has contributed to the body of work on supply chain and logistics security and has been cited in trade publications such as *Journal of Commerce*, *CargoVision*, and the on-line logistics magazine, *DCVelocity*.
