Foreword	ix
Preface	xi
Notes from the Editors	xxi
Acknowledgments	xxiii
Contributors	xxiv

1 What Is Public Health and Public Health Nursing? 3

Public Health Defined	4
Public Health Nursing	9
Public Health Now	10
Conclusion	19
References	20

2 Public Health Nursing in the United States: A History 23

What Is a Public Health Nurse?	24
Evolution of the Public Health Nurse	25
Education of Public Health Nurses	43
Conclusion	44
References	45

3 Assessment: Using the Public Health Nursing Assessment Tool 49

Overview of the Unique Qualities of the PHNAT	52
PHNAT Four Foundational Health Measures	53
Analysis of Health	56
Prioritize Public Health Issues	56
Plan and Implementation: Applying the Intervention Wheel	57

Tracking and Evaluation 58
Reflection 58
Conclusion 60
References 60
Appendix: Public Health Nursing Assessment Tool 62

4 Fundamentals of Epidemiology and Social Epidemiology 91

Epidemiology 92
Conclusion 113
References 114

5 Educating Public Health Nurses to Do the Work 119

State of Public Health 120
What Is Public Health Nursing? 120
Status of Public Health Nurses in the United States 121
Public Health Nursing Education 121
Example of Reflections and Evaluation Leading to Course Evolution 122
The Association of Community Health Nursing Educators 123
The Quad Council of Public Health Nursing Organizations—Quad Council 124
Public Health Nursing Education, Nursing's Social Policy Statement, Code of Ethics 125
Interprofessional Education 125
Community-Engaged Learning 129
Nursing 499: Community-Engaged Service Learning Course and Student Outcomes 131
Conclusion 135
References 136

6 Evidence-Based Practice From a Public Health Perspective 141

Introduction to Evidence-Based Practice and Public Health 142
What Is an Evidence-Based Practice Lens for Viewing Population-Based Health Issues? 142
Healthy People 2020—Public Health Conditions: An Evidence-Based Perspective 144
References 153

7 Informatics in Public Health Nursing 161

Information Technology in Public Health Nursing 162
Informatics in Public Health 166
Public Health Interventions 166

Ethical Concerns	168
Conclusion	169
References	169

8 Considerations of Culture in the Health of the Public 173

Culture	174
Case Studies	185
Conclusion	190
Acknowledgments	190
References	191

9 Healthcare Policy and Politics: The Risk and Rewards for Public Health Nurses 197

Why Does Federal Healthcare Policy Matter?	198
The Current U.S. Healthcare System, Post-ACA 2010	204

Introduction	218
Social Justice in Nursing	218
Defining Social Justice, Health Disparities, and Health Inequities	219
A Call to Social Justice Action	220
Public Health Ethics	220
Criteria for Public Health Action	222
Conclusion	225
References	226

11 Hitting the Pavement: Intervention of Case-Finding: Outreach, Screening, Surveillance, and Disease and Health Event Investigation 229

The Intervention Wheel	230
Public Health Issues in Practice	244

Case Study 1—TB: When Time Is of Importance 251
Case Study 2—Zika: Anything but Clear 253
Levels of Practice Evident in the Red Wedge 256
Conclusion 257
References 263

12 Running the Show: Referral and Follow-up, Case Management, and Delegated Functions 269

The Intervention Wheel Strategies and Levels of Practice 270
The Intervention Wheel: Application to Practice 284
Conclusion 287
References 290

13 Working It Out: Consultation, Counseling, and Health Teaching 295

The Intervention Wheel 296
The Case/Issue 304
The Intervention Wheel: Applying and Doing 307
Conclusion 311
References 314

14 Working Together: Collaboration, Coalition Building, and Community Organizing 319

Frameworks for Collective Action 320
Collaboration 321
Coalition Building 324
Community Organizing 328
Factors of Successful Community Organizing 329
Stages of the Strategy 330
Conclusion 331
References 335

15 Getting the Word Out: Advocacy, Social Marketing, and Policy Development and Enforcement 339

Issue: The Implementation of PrEP within Adolescent School-Based Clinics 340
Preexposure Prophylaxis 341
The Intervention Wheel Strategies and Levels of Practice 341
Conclusion 352
References 356

16 Protecting, Sustaining, and Empowering: A Historical Perspective on the Control of Epidemics 359

- Protecting the People Against God's Wrath: Bubonic Plague in Early Modern Italy 360
- Serving and Sustaining a Desperate Population: Influenza in the Modern United States 365
- Empowering the Vulnerable: AIDS in Contemporary Britain 367
- Conclusion 370
- References 372

17 Historical Highlights in Disaster Nursing 377

- Yellow Fever and the Johnstown Flood 378
- The Galveston Hurricane, 1900 379
- The Flu Pandemic, 1918–1919 380
- 1947 Texas City Ship Explosion 382
- The Alaska Earthquake of 1964 386
- Conclusion 388
- References 389

18 Present-Day Disasters and Disaster Management: Social Determinants of Health and Community Collaboration 393

- Introduction 394
- Disaster and Emergencies 394
- Four Phases of Emergency Management 396
- Public Health Nursing and Emergency Management 397
- Protecting the Public in a Disaster 398
- Preparedness from a Social and Cultural Context 399
- Resilience 400
- Surge Capacity 401
- Hurricane Irene: Resilience in a Vermont Community—Pittsfield, Vermont—Case Study 1 401
- Violence and Mass Shootings—A Disaster of Our Own Making—Case Study 2 402
- Conclusion 404
- References 405

19 Environment and Health 409

- Introduction 410
- What Is Environmental Health? 410
- Taking a Closer Look at the Environment 411
- Environmental Health and the Role of the Nurse 418
- Conclusion 419
- References 420

20 Epilogue: Nursing and Primary Health Care 423

The Declaration of Alma-Ata 424

Primary Health Care 427

Evolution of Primary Health Care 429

Why the Struggle? 429

Primary Health Care Includes Primary Care 430

The Teaching of a Philosophy 438

Conclusion 438

References 440

Glossary 443

Index 453
