

# The Landscape Photography Book

The step-by-step techniques you need to capture breathtaking landscape photos like the pros

**Scott Kelby**

Author of the top-selling digital photography book ever—*The Digital Photography Book*, part 1

# Contents

<b>Chapter 01</b>	<b>001</b>
<b>ESSENTIAL GEAR</b>	
<i>There is Some Stuff Ya Kinda Have to Have</i>	
You're Going to Need a Sturdy Tripod.....	002
Avoid Using the Center Column.....	003
Extending Your Tripod's Legs.....	004
Hanging Weight for Sturdiness.....	005
How to Splay the Legs.....	006
Get Really Low Using a Platypod.....	007
You'll Want a Ballhead.....	008
You'll Need a Cable Release.....	009
Get Your Horizon Line Straight, Method 1.....	010
Get Your Horizon Line Straight, Method 2.....	011
The Awesomeness of a Quick Release Plate and an L-Bracket.....	012
In Every Landscape Photographer's Bag: A Circular Polarizer.....	013
You'll Need a Graduated ND Filter.....	014
And, You'll Probably Want an ND Filter.....	015
Seeing Your LCD in Bright Daylight.....	016
You'll Need a Small, Powerful Flashlight.....	017
The Greatest Stuff on Earth: Gaffer's Tape.....	018
A Good, Cheap Lens Cloth.....	019
Which Type of Memory Card to Use.....	020
A Drive for Backing Up in the Field.....	021
Extra Batteries (Especially in Cold Weather).....	022
A Good Backpack (but Not a Big One).....	023
<b>Chapter 02</b>	<b>025</b>
<b>CAMERA SETTINGS &amp; LENSES</b>	
<i>How to Get the Right Settings for the Job</i>	
Set Your Camera at Its Lowest Native ISO.....	026
Shoot in Aperture Priority Mode.....	027
Which Aperture (f-Stop) to Use.....	028
What Shutter Speed to Use.....	029
Shoot in RAW (Wider Dynamic Range).....	030
Right Now, Go Turn On Your Highlight Warning.....	031
Is the Highlight Warning You're Seeing Really Accurate? Well...No.....	032
How to Deal with Clipped Highlights.....	033
Which Metering Mode to Use.....	034
When to Switch to Spot Metering.....	035
Set Your White Balance to Cloudy.....	036
You Have to Check Sharpness During the Shoot.....	037

# Contents

Live View Super-Sharp Focus Trick .....	038
Which Focus Mode to Use .....	039
Mirror Lockup .....	040
Your Cable Release Alternative .....	041
Wide-Angle Lens (Why and Which One) .....	042
When to Use Ultra-Wide Lenses .....	043

## Chapter 03 045

### BEFORE YOUR SHOOT

#### *The Art of Prepping for Success*

Do Your Research .....	046
Start with Pinterest .....	047
Then, Check 500px.com .....	048
Google Images Search & Google Maps .....	049
Location Scouting .....	050
Great Landscapes Make Great Landscape Shots .....	051
When to Shoot: Dawn .....	052
When to Shoot: Dusk .....	053
What to Shoot Other Times .....	054
Shooting at Blue Hour .....	055
What Time to Get There for Sunrise Shoots .....	056
What to Do the Night Before Your Dawn Shoot .....	057

## Chapter 04 059

### COMPOSITION

#### *Framing Is Everything!*

Choosing Your Shooting Position .....	060
Should You Shoot Tall or Wide? .....	061
Where to Focus .....	062
Or Use Infinite Focus, So Everything's in Focus .....	063
Where to Put the Horizon Line .....	064
How to Lead the Viewer's Eye .....	066
Drawing the Viewer's Eye Using Negative Space .....	066
Drawing Their Eye with Light .....	067
Why You Need a Foreground Object .....	068
You Need a Clear Subject .....	069
Simplify the Scene .....	070
Avoiding the Border Junk That Ruins Images .....	071
Why We Need Clouds in Our Shots .....	072
Getting Still Water Reflections .....	073
Taking Great Shots of Mountains .....	074

Mountains as Backgrounds.....	075
Photographing Mountains from Down Low.....	076
Shooting with the Sun in the Frame.....	077
Shoot Right Before or Right After Bad Weather.....	078
Study Other Landscape Photographers' Work.....	079

## **Chapter 05** **081**

### **HDR & PANOS**

*Ummm, it's how to Make HDRs and Panos*

The Advantage of Panos Versus Wide-Angle.....	082
Camera Settings for Shooting Panos.....	083
Picking a Lens for Panos That Limits Edge Distortion.....	084
Make Certain Your Camera Is Level.....	085
Keeping Your Camera Centered.....	086
Three Advantages to Shooting Them Tall.....	087
Put Your Ballhead's Notch on the Left for Tall Panos.....	088
The Key to Panoramas That Stitch Together Perfectly.....	089
The Two-Finger Trick Pan Helper.....	090
Pano Trick for Keeping More with Less Cropping.....	091
Be Quick About It.....	092
Shooting Vertical Panos.....	093
Shooting Multi-Row Panos.....	094
How to Stitch Your Shots Into a Pano.....	095
Which Is Best: Auto Crop or Boundary Warp?.....	096
Stacking Your Panos to Keep Things Tidy.....	097
Printing Panoramas.....	098
How to Shoot HDR Images.....	099
How to Merge Those Into a Single HDR Image.....	100
Creating HDR Panos.....	101

## **Chapter 06** **103**

### **LONG EXPOSURES**

*The Art of Showing Movement*

It Starts with a Tripod and Cable Release.....	104
Start with Auto Focus, Then Switch to Manual.....	105
Turn Off IS/VR.....	106
Where to Set Your ISO.....	107
How Long to Keep Your Shutter Open.....	108
How to Shoot Longer Than 30 Seconds.....	109
Cover Your Viewfinder to Avoid Light Leak.....	110
Why You'd Want to Lock Your Shutter Release.....	111

# Contents

You'll Need an ND (Neutral Density) Filter.....	112
Stack ND Filters for Even Longer Exposures .....	113
Try Using Live View to Focus .....	114
Take a Second Shot in Aperture Priority Mode for Sharp Detail .....	115
Long Exposure Noise Reduction .....	116
Making Waterfalls and Streams Look Silky .....	117
You Want the Clouds Moving .....	118
How to Do Light Painting.....	119

## Chapter 07 121

### **STARRY SKIES & THE MILKY WAY**

#### *Shooting the Heavens*

Your Goal: a Landscape Shot with a Starry Sky.....	122
Avoid Light Pollution.....	123
Check the Weather, 'Cause You're Gonna Need a Cloudless, Clear Sky, Too!.....	124
The Moon Is Your Enemy.....	125
The Milky Way Is Only Visible for a Few Months Each Year.....	126
Where Exactly Will the Milky Way Be? There's an App for That.....	127
Red Light Headlamp for Night Shooting .....	128
Hold Your Camera Steady .....	129
You'll Need to Shoot in Manual Mode .....	130
Here's the F-Stop to Use .....	131
Here's How Long to Set Your Shutter Speed.....	132
When to Bump Up Your ISO .....	133
You Need to Shoot in RAW .....	134
Use a Very Wide-Angle Lens.....	135
Turn Off IS/VR .....	136
How to Set Your Focus on Stars, Method 1 .....	137
How to Set Your Focus on Stars, Method 2 .....	138
Use Live View to Focus.....	139
Use Focus Peaking for Super Sharp Stars.....	140
Lighting Your Foreground Landscape, Method 1.....	141
Lighting Your Foreground Landscape, Method 2.....	142
Post-Processing Milky Way Shots.....	143

## Chapter 08 145

### **POST-PROCESSING**

#### *Take Your Images from Flat to Fantastic!*

Opening JPEG or TIFFs in Camera Raw.....	146
Choosing a Better Starting Place.....	147
Set Your White Balance First.....	148

# Contents

Choosing a More Creative White Balance .....	148
Now Set Your White and Black Points .....	150
Setting the Exposure Slider .....	151
Fixing Damaged Highlights (Clipping) .....	152
Opening Up Dark Shadow Areas .....	153
Enhancing Detail and Texture .....	154
Making Your Colors Look More Vibrant .....	155
Adding a Graduated ND Filter in Post .....	156
Cropping and Straightening .....	157
Converting to Black and White .....	158
Two Methods for Adding Contrast .....	159
Removing Haze from Your Scenes .....	160
Correcting Lens Problems .....	161
Dealing with Purple or Green Color Fringing (Chromatic Aberrations) .....	162
Sharpening Your Landscape Images .....	163
Creating Reflections .....	164
Dealing with Glows .....	165
Post-Processing Focus-Stacked Images .....	166
Blue Sky Trick .....	167
Using the Auto Button as a Starting Place .....	168
Adding That "Dreamy Look" .....	169
Cloud Replacement, Technique #1 .....	170
Cloud Replacement, Technique #2 .....	171
Removing Distracting Stuff .....	172
Noise Reduction Just Where You Need It .....	173
Combining Long Exposure Images .....	174
Get Detail in the Moon by Combining Images .....	175

## Chapter 09 177

### **EVEN MORE TIPS**

*Really, There's More? Yes, More!*

Rain Gear (and Why You Need It) .....	178
How to Dry Your Wet Gear .....	179
Small Ponds or Puddles for Reflections .....	180
Cloudy Days—Enjoying Nature's Softbox .....	181
Don't Shoot Black & White In-Camera .....	182
Putting People in Your Landscape .....	183
Creating Mystery with Fog and Atmospheric Effects .....	184
De-fogging Your Lens .....	185
The Secret to Getting an Amazing Sky .....	186
How to Get Detail in the Moon .....	187

# Contents

Longer-Lasting Batteries in Cold Weather .....	188
Creating Beams of Light in Forests .....	189
