How to Design and Evaluate Research in Education

Tenth Edition

Mc
Graw
Hill
Education

Preface xxvii

PART 1

Introduction to Research 1

- 1 The Nature of Research 2

PART 2

The Basics of Educational Research 25

- 2 The Research Problem 26
 3 Locating and Reviewing the Literature 37
 4 Ethics and Research 60
 5 Variables and Hypotheses 75
 6 Sampling 90
 7 Instrumentation 110
 8 Validity and Reliability 142
 9 Internal Validity 160

PART 3

Data Analysis 179

- 10 Descriptive Statistics 180
 11 Inferential Statistics 213
 12 Statistics in Perspective 239

PART 4

Quantitative Research Methodologies 257

- 13 Experimental Research 258

- 14 Single-Subject Research 294
 15 Correlational Research 324
 16 Causal-Comparative Research 343
 17 Survey Research 367

PART 5

Introduction to Qualitative Research 379

- 18 The Nature of Qualitative Research 380
 19 Observation and Interviewing 399
 20 Content Analysis 431

PART 6

Qualitative Research Methodologies 447

- 21 Ethnographic Research 448
 22 Historical Research 480

PART 7

Mixed-Methods Studies 501

- 23 Mixed-Methods Research 502

PART 8

Research by Practitioners 527

- 24 Action Research 528

PART 9Writing Research
Proposals and Reports 547

- 25** Preparing Research Proposals and
Reports 548

Appendixes A-1

- APPENDIX A** Portion of a Table of Random
Numbers A-2
- APPENDIX B** Selected Values from a Normal
Curve Table A-3
- APPENDIX C** Chi-Square Distribution A-4
- APPENDIX D** Using Microsoft Excel A-5

Glossary G-1

Index I-1
