# ABRAMS' CLINICAL DRUG THERAPY

## Rationales for Nursing Practice

Geralyn Frandsen  
Sandra Smith Pennington

 Wolters Kluwer

 Wolters Kluwer

# Contents

## SECTION 1 THE CONCEPTUAL FRAMEWORK OF PHARMACOLOGY 1

### 1 The Foundation of Pharmacology: Quality and Safety 2

- Introduction 3
- Drug Sources 3
- Drug Classifications and Prototypes 3
- Drug Names 3
- Drug Marketing 4
- Pharmacoeconomics 4
- Pharmacogenomics 4
- Access to Drugs 4
- Drug Approval Processes: Food and Drug Administration 7
- Safety in Drug Administration 8
- Sources of Drug Information 11
- Strategies for Studying Pharmacology 12

### 2 Basic Concepts and Processes 15

- Introduction 16
- Cellular Physiology 17
- Drug Transport Through Cell Membranes 17
- Pharmacokinetics 18
- Pharmacodynamics 22
- Variables That Affect Drug Actions 22
- Adverse Effects of Drugs 27
- Toxicology: Drug Overdose 29

### 3 Medication Administration and the Nursing Process of Drug Therapy 35

- Introduction 36
- General Principles of Accurate Drug Administration 36
- Legal Responsibilities 37
- Medication Errors and Their Prevention 38
- Medication Orders 44
- Drug Preparations and Dosage Forms 44
- Calculating Drug Dosages 46
- Routes of Administration 48
- Nursing Process in Drug Therapy 53
- Integrating Evidence-Based Practice With the Nursing Process 61
- Herbal and Dietary Supplements 61

## SECTION 2 DRUG THERAPY THROUGHOUT THE LIFESPAN 69

### 4 Pharmacology and the Care of Infants and Pediatric Patients 70

- Introduction 71
- Drug Safety in Pediatrics 71
- Pharmacotherapy in Pediatrics 72
- Medication Administration in Pediatrics 73

### 5 Pharmacology and the Care of Adults and Geriatric Patients 78

- Introduction 79
- Pharmacodynamics in Older Adults 79
- Pharmacokinetics in Older Adults 85
- Medication Adherence and Aging 87

### 6 Pharmacology and the Care of Pregnant or Lactating Women 91

- Introduction 92
- Drug Therapy for Infertility 92
- Drugs Used in Pregnancy 93
- Fetal Therapeutics 97
- Maternal Therapeutics 97
- Drugs That Alter Uterine Motility: Tocolytics 100
- Drugs Used During Labor and Delivery at Term 102
- Lactation 104

### 7 Pharmacology and Women's Health 108

- Introduction 109
- Overview of Reproduction in Women 109
- Common Reproductive Health Problems in Women 111
- Estragens 112
- Progestins 116
- Estrogen-Progestin Combinations 120

### 8 Pharmacology and Men's Health 128

- Introduction 129
- Overview of Reproductive Health Problems in Men 129
- Androgens and Anabolic Steroids 131
- Phosphodiesterase Type 5 Inhibitors 135
- Adjuvant Medications Used to Treat Erectile Dysfunction 138
- Drugs for Benign Prostatic Hypertrophy 138
- 5-Alpha Reductase Inhibitors 138
- Alpha<sub>1</sub>-Adrenergic Blockers 140

## SECTION 3 DRUGS AFFECTING THE HEMATOPOIETIC AND IMMUNE SYSTEMS 145

### 9 Drug Therapy for Coagulation Disorders 146

- Introduction 147
- Overview of Coagulation Disorders 147
- Anticoagulant Drugs 149
- Antiplatelet Drugs 160
- Thrombolytic Drugs 166
- Drugs Used to Control Bleeding 168

### 10 Drug Therapy for Dyslipidemia 174

- Introduction 175
- Overview of Dyslipidemia 175
- HMG-CoA Reductase Inhibitors 178
- Bile Acid Sequestrants 183
- Fibrates 184

- Cholesterol Absorption Inhibitor 186  
 PCSK9 Inhibitors 187  
 Miscellaneous Dyslipidemic Agent 188  
 Combination Therapy Used to Treat Dyslipidemia 189
- 11 Drug Therapy for Hematopoietic Disorders 193**  
 Introduction 194  
 Overview of Hematopoiesis and Immune Function 194  
 Erythropoiesis-Stimulating Agents 196  
 Granulocyte Colony-Stimulating Factors 199  
 Interferons 202  
 Adjuvant Medications Used to Stimulate the Immune System: Interleukins 205
- 12 Drug Therapy: Immunizations 209**  
 Introduction 210  
 Overview of Immunization 210  
 Individual Immunizing Agents 210  
 Keeping Up-to-Date With Immunization Recommendations 221
- 13 Drug Therapy to Decrease Immunity 225**  
 Introduction 226  
 Overview of Altered Immune Function 226  
 Cytotoxic Immunosuppressive Agents 228  
 Conventional Antirejection Agents 234  
 Janus Associated Kinase Inhibitor 237  
 Adjuvant Medications Used to Suppress Immune Function 238
- 14 Drug Therapy for the Treatment of Cancer 249**  
 Introduction 250  
 Overview of Cancer 250  
 Cytotoxic Antineoplastic Drugs Used to Treat Cancer 252  
 Adjuvant Medications Used to Treat Cancer 270
- SECTION 4  
 DRUGS AFFECTING  
 INFLAMMATION AND  
 INFECTION 285**
- 15 Inflammation, Infection, and the Use of Antimicrobial Agents 286**  
 Introduction 287  
 Overview of Inflammation 287  
 Overview of Microorganisms 289
- 16 Drug Therapy to Decrease Pain, Fever, and Inflammation 301**  
 Introduction 302  
 Overview of Pain, Fever, and Inflammation 303  
 Specific Conditions 305  
 Gout 307  
 Salicylates 308  
 Nonnarcotic Analgesic Antipyretic: Acetaminophen 311  
 Nonsteroidal Anti-Inflammatory Drugs 314  
 Propionic Acid Derivatives 314  
 Oxicam Derivatives 318  
 Acetic Acid Derivatives 319  
 Selective COX-2 Inhibitor: Celecoxib 323
- Antigout Medication 324  
 Uricosuric Agents 326
- 17 Drug Therapy With Corticosteroids 332**  
 Introduction 333  
 Physiology of Endogenous Corticosteroids 333  
 Pathophysiology of Adrenal Cortex Disorders 334  
 Drug Therapy with Exogenous Corticosteroids 336
- 18 Drug Therapy With Beta-Lactam Antibacterial Agents 355**  
 Introduction 356  
 Penicillins 357  
 Cephalosporins 361  
 Carbapenems 368  
 Monobactams 370
- 19 Drug Therapy With Aminoglycosides and Fluoroquinolones 375**  
 Introduction 376  
 Aminoglycosides 376  
 Fluoroquinolones 380
- 20 Drug Therapy With Tetracyclines, Sulfonamides, and Urinary Antiseptics 387**  
 Introduction 388  
 Tetracyclines 388  
 Sulfonamides 392  
 Adjuvant Medications Used to Treat Urinary Tract Infections: Urinary Antiseptics 396
- 21 Drug Therapy With Macrolides and Miscellaneous Anti-infective Agents 401**  
 Introduction 402  
 Macrolides 402  
 Miscellaneous Anti-infective Agents 406
- 22 Drug Therapy for Tuberculosis and *Mycobacterium Avium* Complex Disease 415**  
 Introduction 416  
 Overview of Tuberculosis and *Mycobacterium Avium* Complex Disease 416  
 Isoniazid 420  
 Rifamycins 423  
 Adjuvant First-Line Antitubercular Drugs 426  
 First-Line Drug Combinations Used to Treat Tuberculosis 428  
 Second-Line Drugs Used to Treat Tuberculosis 428  
 Drugs Used to Treat *Mycobacterium Avium* Complex Disease 428  
 Special Strategies to Increase Adherence to Antitubercular Drug Regimens 429
- 23 Drug Therapy for Viral Infections 433**  
 Introduction 434  
 Overview of Viruses and Viral Infections 434  
 Drugs for Herpesvirus Infections 438  
 Drugs for Respiratory Syncytial Virus 445  
 Monoclonal Antibody for Respiratory Syncytial Virus 446  
 Drugs for Hepatitis B: Nucleoside Analogs 450  
 Drugs for Hepatitis C: Polymerase Inhibitors 452  
 Drugs for Human Immunodeficiency Virus (Antiretroviral Drugs) 453  
 Protease Inhibitors 461

- Cytochrome P-450 Inhibitor 464
- Combination Medication for HIV-1: Integrase Inhibitor, Reverse Transcriptase Inhibitor, Nucleoside, Reverse Transcriptase Inhibitor, Nucleotide 467
- 24 Drug Therapy for Fungal Infections 472**
  - Introduction 473
  - Overview of Fungal Infections 473
  - Polyenes 477
  - Azoles 480
  - Echinocandins 484
  - Miscellaneous Antifungal Agents for Superficial Mycoses 486
  - Pyrimidine Analog 488
- 25 Drug Therapy for Parasitic Infections 492**
  - Introduction 493
  - Overview of Parasitic Infections 493
  - Amebicides 495
  - Antimalarials 498
  - Anthelmintics 501
  - Scabicides and Pediculicides 502

## SECTION 5 DRUGS AFFECTING THE CARDIOVASCULAR SYSTEM 507

- 26 Drug Therapy for Hypertension 508**
  - Introduction 509
  - Overview of Hypertension 509
  - Angiotensin-Converting Enzyme Inhibitors 518
  - Angiotensin II Receptor Blockers 522
  - Calcium Channel Blockers 525
  - Adjuvant Medications Used to Treat Hypertension 528
- 27 Drug Therapy for Dysrhythmias 537**
  - Introduction 538
  - Overview of Dysrhythmias 538
  - Class I Sodium Channel Blockers 541
    - Class IA 541
    - Class IB 545
    - Class IC 545
  - Class II Beta-Adrenergic Blockers 545
  - Class III Potassium Channel Blockers 548
  - Class IV Calcium Channel Blockers 551
  - Unclassified Antidysrhythmic Drugs 553
  - Drug Therapy in Emergency Resuscitation of Adults 553
  - Magnesium Sulfate 554
- 28 Drug Therapy for Coronary Heart Disease 558**
  - Introduction 559
  - Overview of Coronary Artery Disease 559
  - Organic Nitrates 562
  - Beta-Adrenergic Blockers 567
  - Calcium Channel Blockers 570
  - Adjuvant Medications 572
- 29 Drug Therapy for Shock and Hypotension 579**
  - Introduction 580
  - Overview of Acute Hypotension and Shock 580
  - Treatment of Hypotension and Shock 581
  - Adrenergic Drugs 582

- 30 Drug Therapy for Heart Failure 591**
  - Introduction 592
  - Overview of Heart Failure 592
  - Cardiac Glycosides 597
  - Phosphodiesterase Inhibitors (Cardiotonic-Inotropic Agents) 602
  - Angiotensin Receptor–Neprilysin Inhibitors 604
  - Sinoatrial Node Modulators 606
  - Adjuvant Medications Used to Treat Heart Failure 608

## SECTION 6 DRUGS AFFECTING THE RESPIRATORY SYSTEM 617

- 31 Drug Therapy for Nasal Congestion and Cough 618**
  - Introduction 619
  - Overview of Nasal Congestion and Other Respiratory Symptoms 619
  - Nasal Decongestants 620
  - Antitussives 624
  - Expectorants 626
  - Mucolytics 627
  - Herbal Remedies and Other Preparations 628
  - Combination Products 628
- 32 Drug Therapy to Decrease Histamine Effects and Allergic Response 634**
  - Introduction 635
  - Overview of Histamine Release and the Allergic Response 635
  - First-Generation H<sub>1</sub> Receptor Antagonists 639
  - Second-Generation H<sub>1</sub> Receptor Antagonists 643
  - Third-Generation H<sub>1</sub> Receptor Antagonists 645
- 33 Drug Therapy for Asthma, Airway Inflammation, and Bronchoconstriction 651**
  - Introduction 652
  - Overview of Asthma 652
  - Adrenergics 657
  - Anticholinergics 661
  - Xanthines 662
  - Corticosteroids 665
  - Leukotriene Modifiers 668
  - Immunosuppressant Monoclonal Antibodies 670
  - Adjuvant Medications Used to Treat Asthma 671

## SECTION 7 DRUGS AFFECTING THE RENAL AND DIGESTIVE SYSTEMS 677

- 34 Drug Therapy for Fluid Volume Excess 678**
  - Introduction 679
  - Renal Physiology 679
  - Overview of Conditions Requiring Diuretic Agents 680
  - Loop Diuretics 682
  - Thiazide Diuretics 686
  - Potassium-Sparing Diuretics 689
  - Adjuvant Medications Used to Treat Fluid Volume Excess 691

**35 Nutritional Support Products, Vitamins, and Mineral Supplements 696**

- Introduction 697
- Overview of Altered Nutritional States 697
- Fat-Soluble Vitamins 707
- Water-Soluble Vitamins 712
- Minerals 715
- Nutritional Products 722

**36 Drug Therapy for Weight Management 728**

- Introduction 729
- Overview of Weight Management 729
- Noradrenergic Sympathomimetic Anorexiant 734
- Lipase Inhibitors 737
- Other Drugs Used for Weight Management 739
- Herbal and Dietary Supplements Used for Weight Management 739

**37 Drug Therapy for Peptic Ulcer Disease and Hyperacidity 744**

- Introduction 745
- Overview of Peptic Ulcer Disease and Gastroesophageal Reflux Disease 745
- Antacids 747
- Histamine<sub>2</sub> Receptor Antagonists 749
- Proton Pump Inhibitors 754
- Adjuvant Medications Used to Treat Peptic Ulcer Disease and Gastroesophageal Reflux Disease 757

**38 Drug Therapy for Nausea and Vomiting 764**

- Introduction 765
- Overview of Nausea and Vomiting 765
- Phenothiazines 766
- Antihistamines 769
- 5-Hydroxytryptamine<sub>1</sub> (5-HT<sub>1</sub>) or Serotonin Receptor Antagonists 772
- Substance P/Neurokinin 1 Antagonists 774
- Miscellaneous Antiemetics 776
- Nonpharmacologic Management 778

**39 Drug Therapy for Constipation and Elimination Problems 783**

- Introduction 784
- Overview of Constipation 784
- Laxatives 785
- Cathartics 789
- Miscellaneous Agents for Constipation 792

**40 Drug Therapy for Diarrhea 798**

- Introduction 799
- Overview of Diarrhea 799
- Opiate-Related Antidiarrheal Agents 801
- Adjuvant Medications Used to Treat Diarrhea 803

**SECTION 8  
DRUGS AFFECTING THE  
ENDOCRINE SYSTEM 811****41 Drug Therapy for Diabetes Mellitus 812**

- Introduction 813
- Overview of Diabetes 813
- Insulins 817
- Sulfonylureas 829

- Biguanide 832
- Alpha-Glucosidase Inhibitors 834
- Thiazolidinediones 835
- Meglitinides 837
- Dipeptidyl Peptidase 4 Inhibitors 839
- Amylin Analogs 840
- Glucagon-Like Peptide-1 Receptor Agonists (Incretin Mimetics) 841
- Sodium Glucose Cotransporter 2 (SGLT2) Inhibitors 843
- Combination Drug Therapy for Type 2 Diabetes 844
- Adjuvant Medications Used to Treat Diabetes 845

**42 Drug Therapy for Hyperthyroidism and Hypothyroidism 850**

- Introduction 851
- Overview of the Thyroid Gland 851
- Antithyroid Drugs 854
- Adjuvant Medication Used to Treat Hyperthyroidism 857
- Thyroid Drugs 858

**43 Drug Therapy for Pituitary and Hypothalamic Dysfunction 865**

- Introduction 866
- Overview of Pituitary and Hypothalamic Dysfunction 866
- Anterior Pituitary Hormone Drugs for Growth Deficiency in Children 870
- Posterior Pituitary Hormone Drugs for Diabetes Insipidus 874
- Hypothalamic Hormone Drugs 876

**44 Drug Therapy to Regulate Calcium and Bone Metabolism 883**

- Introduction 884
- Overview of Calcium and Bone Metabolism 885
- Calcium Preparations 888
- Vitamin D 892
- Bisphosphonates 893
- Other Medications Used to Treat Bone Disorders and Hypercalcemia 896

**45 Drug Therapy for Adrenal Cortex Disorders 901**

- Introduction 902
- Overview of Addison's Disease 902
- Overview of Cushing's Disease 903
- Drugs Used to Treat Addison's Disease 904
- Drugs Used to Treat Cushing's Disease 908
- Glucocorticoid Receptor Antagonists 908

**SECTION 9  
DRUGS AFFECTING THE  
AUTONOMIC AND CENTRAL  
NERVOUS SYSTEM 915****46 Physiology of the Autonomic and Central Nervous Systems and Indications for the Use of Drug Therapy 916**

- Introduction 917
- Structure and Function of the Autonomic Nervous System 917
- Characteristics of Autonomic Drugs 923

- 47 Drug Therapy for Myasthenia Gravis, Alzheimer's Disease, and Other Conditions Treated with Cholinergic Agents 926**  
 Introduction 927  
 Overview of Myasthenia Gravis 927  
 Acetylcholinesterase Inhibitors (Indirect-Acting Cholinergics) 928  
 Immunosuppressive Therapy for Myasthenia Gravis 932  
 Overview of Alzheimer's Disease 932  
 Cholinesterase Inhibitors: Reversible Indirect-Acting Cholinergics 933  
 N-Methyl-D-Aspartate Receptor Antagonist 936  
 Cholinesterase Inhibitor–N-Methyl-D-Aspartate Receptor Antagonist 936  
 Overview of Urinary Retention 937  
 Cholinergic Agonist 937  
 Irreversible Anticholinesterase Toxicity 938
- 48 Drug Therapy for Parkinson's Disease, Urinary Spasticity, and Disorders Requiring Anticholinergic Drug Therapy 943**  
 Introduction 944  
 Overview of Parkinson's Disease 944  
 Dopamine Receptor Agonists 945  
 Catechol-O-Methyltransferase Inhibitors 952  
 Catechol-O-Methyltransferase Inhibitor and Decarboxylase Inhibitor/Dopamine Precursor 954  
 Overview of Anticholinergic Drugs 955  
 Belladonna Alkaloid and Derivatives 957  
 Centrally Acting Anticholinergics 961  
 Gastrointestinal Anticholinergics (Antisecretory/Antispasmodic) 963  
 Urinary Antispasmodics 964
- 49 Drug Therapy With Opioids 970**  
 Introduction 971  
 Overview of Impact of the Opioid Epidemic 971  
 Overview of Pain 971  
 Opioid Agonists 974  
 Opioid Agonists/Antagonists 984  
 Opioid Antagonists 986
- 50 Drug Therapy With Local Anesthetics 992**  
 Introduction 993  
 Overview of Local Anesthesia 993  
 Amides 994  
 Esters 997
- 51 Drug Therapy With General Anesthetics 1002**  
 Introduction 1003  
 Overview of General Anesthesia 1003  
 Inhalation Anesthetics 1004  
 Intravenous General Anesthetics 1007  
 Neuromuscular Blocking Agents 1010  
 Adjuvant Medications Used in General Anesthesia 1013
- 52 Drug Therapy for Migraine and Other Headaches 1018**  
 Introduction 1019  
 Overview of Headaches 1019  
 Nonsteroidal Anti-Inflammatory Agents 1022  
 Acetaminophen, Aspirin, and Caffeine 1023  
 Ergot Alkaloids 1025  
 Triptans 1027  
 Estrogen 1030  
 Preventive Therapy for Migraine Headaches 1031  
 Adjuvant Medications for Migraine Headaches 1033
- 53 Drug Therapy for Seizure Disorders and Skeletal Muscle Disorders 1037**  
 Introduction 1038  
 Overview of Epilepsy 1038  
 Drugs Used to Treat Seizure Disorders 1040  
 Other Antiepileptic Drugs 1053  
 Overview of Spinal Cord Injury 1065  
 Drugs Used to Treat Muscle Spasms and Spasticity 1066
- 54 Drug Therapy for Anxiety and Insomnia 1076**  
 Introduction 1077  
 Overview of Anxiety 1077  
 Overview of Sleep and Insomnia 1079  
 Benzodiazepines 1080  
 Nonbenzodiazepine Sedative–Hypnotic Agents 1086
- 55 Drug Therapy for Depression and Mood Stabilization 1092**  
 Introduction 1093  
 Overview of Depression 1093  
 Overview of Bipolar Disorder 1095  
 Tricyclic Antidepressants 1096  
 Selective Serotonin Reuptake Inhibitors 1100  
 Serotonin–Norepinephrine Reuptake Inhibitors 1103  
 Monoamine Oxidase Inhibitors 1105  
 Atypical Antidepressants 1107  
 Mood-Stabilizing Agents: Drugs Used to Treat Bipolar Disorder 1108  
 Other Medications Used to Treat Bipolar Disorder 1111
- 56 Drug Therapy for Psychotic Disorders 1115**  
 Introduction 1116  
 Overview of Psychosis 1116  
 First-Generation Antipsychotics 1119  
 First-Generation Nonphenothiazines 1124  
 Second-Generation "Atypical" Antipsychotics 1126
- 57 Drug Therapy for Attention Deficit Hyperactivity Disorder and Narcolepsy 1136**  
 Introduction 1137  
 Overview of Attention Deficit Hyperactivity Disorder 1137  
 Overview of Narcolepsy 1138  
 Stimulants 1139  
 Amphetamines 1139  
 Amphetamine-Related Drugs 1142  
 Other Medications Used to Treat Attention Deficit Hyperactivity Disorder and Narcolepsy 1145
- 58 Drug Therapy for Substance Use Disorders 1149**  
 Introduction 1150  
 Overview of Substance Use 1150  
 Central Nervous System Depressant Use: Drug Therapy 1153  
 Benzodiazepines for Treatment of Alcohol Withdrawal 1153  
 Enzyme Inhibitors for Maintenance of Alcohol Sobriety 1157

- Drugs Used to Reduce Cravings in Alcohol Use 1157
- Opioid Agonists and Antagonists for Treatment of Opioid Abuse 1158
- Central Nervous System Stimulant Abuse: Drug Therapy 1159
- Psychoactive Substance Use: Drug Therapy 1159

## SECTION 10 DRUGS AFFECTING THE EYE, EAR, AND SKIN 1167

### 59 Drug Therapy for Disorders of the Eye 1168

- Introduction 1169
- Basic Structure and Function of the Eye 1169
- Overview of Disorders of the Eye 1169
- Drug Therapy for the Diagnosis and Treatment of Ocular Disorders 1171
- Drug Therapy for the Treatment of Glaucoma 1175
  - Alpha<sub>1</sub>-Adrenergic Agonists and Carbonic Anhydrase Inhibitors 1182
- Drug Therapy for Ocular Infections and Inflammation 1183

### 60 Drug Therapy for Disorders of the Ear 1194

- Introduction 1195
- Overview of Disorders of the Ear 1195

- Anti-infective, Antiseptic, Glucocorticoid, and Acidifying Agents 1196
- Fluoroquinolone: Ciprofloxacin 1198
- Penicillin: Amoxicillin 1200
- Adjuvant Medications to Treat Pain and Fever Related to Infections of the Ear 1202

### 61 Drug Therapy for Disorders of the Skin 1205

- Introduction 1206
- Disorders of the Skin 1206
- Drug Therapy 1208
- Retinoids 1214

*Index* 1221
