and Dietetics

TABLE OF CONTENTS

<i>Alphabetical List of Topics</i>	xiii
<i>Revisors</i>	x
<i>Preface</i>	xi
<i>Acknowledgments</i>	xii
<i>Common Abbreviations</i>	xiii
<i>Publisher's Note on Gender-Inclusive Language</i>	xvii

SECTION 1 Normal Life Stages

<i>Overview of Normal Nutrition and Noncommunicable Disease</i>	2
Pregnancy and Lactation	
Pregnancy	7
Lactation	18
Infancy, Childhood, and Adolescence	
Infant (0 to 6 Months)	28
Infant (6 to 12 Months)	33
Childhood	38
Adolescence	46
Stages of Adulthood	
Adulthood	51
Nutrition in Aging	69
Fitness and Lifestyle	
Sports Nutrition	79
Vegetarianism	87

SECTION 2 Oral, Sensory, Skin Conditions, and Adverse Reactions to Food

<i>Overview of Microbiome</i>	92
Orofacial Conditions	
Dental and Oral Conditions	98
Periodontal Disease and Gingivitis	101
Temporomandibular Joint Dysfunction	104
Sensory Impairment	
Sensory Impairments: Vision, Coordination, Chewing, Taste, Smell, and Hearing	106
Autoimmune Inner Ear Disease (Ménière Disease)	113
Skin Conditions, Pressure Injuries, and Vitamin Deficiencies	
Skin Disorders	115
Pressure Injuries	121
Vitamin Deficiencies	126

Food Allergy and Foodborne Illness

Food Allergy	130
Food Poisoning and Foodborne Illness	140

SECTION 3 Pediatrics: Birth Defects and Genetic and Acquired Disorders

<i>Overview of Nutrition in Pediatric Disorders</i>	149
Abetalipoproteinemia	155
Achondroplasia	157
Attention Deficit Disorders	160
Autism Spectrum Disorder	163
Biliary Atresia	167
Bronchopulmonary Dysplasia	170
Carbohydrate Metabolic Disorders	173
Cerebral Palsy	178
Cleft Lip and Palate	182
Congenital Heart Disease	185
Cystinosis and Fanconi Syndrome	189
Down Syndrome	191
Faltering Growth or Failure to Thrive	194
Fatty Acid Oxidation Disorders	198
Fetal Alcohol Syndrome	201
Hirschsprung Disease (Congenital Megacolon)	204
HIV Infection, Pediatric	207
Homocystinuria and Inborn Errors of Cobalamin and Folate	211
Leukodystrophies	214
Low Birth Weight or Premature Birth	217
Macrosomia (Large for Gestational Age)	222
Maple Syrup Urine Disease	225
Mucopolysaccharidoses	228
Necrotizing Enterocolitis	231
Neural Tube Defects: Spina Bifida and Meningocele	234
Obesity, Childhood	238
Otitis Media	245
Phenylketonuria	248
Prader-Willi Syndrome	252
Rickets	255
Small for Gestational Age and Intrauterine Growth Restriction	258
Tay-Sachs Disease	261
Turner Syndrome	263

Tyrosinemia	266
Urea Cycle Disorders	268
Wilson Disease	272

SECTION 4 Neuropsychiatric Disorders

Overview of Neuropsychiatric Disorders 276

Neurologic Disorders

Alzheimer Disease and Dementias	284
Amyotrophic Lateral Sclerosis	290
Brain Trauma	293
Cerebral Aneurysm	296
Disorders of Consciousness	298
Epilepsy and Seizure Disorders	301
Guillain-Barré Syndrome and the Zika Virus	305
Huntington Disease	308
Migraine	312
Multiple Sclerosis	316
Myasthenia Gravis and Neuromuscular Junction Disorders	319
Parkinson Disease	322
Sleep and Circadian Rhythm Disorders	327
Spinal Cord Injury and Paralysis	330
Stroke (Cerebrovascular Accident)	335
Trigeminal Neuralgia	340

Eating Disorders

Anorexia Nervosa	342
Avoidant/Restrictive Food Intake Disorder	347
Binge Eating Disorder	350
Bulimia Nervosa	352

Other Psychiatric Disorders

Bipolar Disorder	357
Depression	361
Schizophrenia	365
Substance Use Disorder and Addiction	371
Tardive Dyskinesia	373

SECTION 5 Pulmonary Disorders

Overview of the Pulmonary System 380

Asthma	382
Bronchiectasis	388
Bronchitis	391
Chronic Obstructive Pulmonary Disease	394
Chylothorax	400
Cor Pulmonale	402
Cystic Fibrosis	404
Interstitial Lung Disease	410
Lung Transplantation	413
Pneumonia	416
Pulmonary Embolism	420
Respiratory Distress Syndrome	423

Respiratory Failure and Mechanical Ventilation	425
Sarcoidosis	429
Sleep Apnea	432
Thoracic Empyema	435
Tuberculosis	437

SECTION 6 Cardiovascular Disorders

Overview of Cardiovascular Disease 444

Angina Pectoris and Ischemic Heart Disease	453
Arteritis and Vasculitis	456
Atherosclerotic Cardiovascular Disease	459
Cardiac Cachexia	465
Cardiomyopathies	468
Heart Failure	472
Heart or Heart-Lung Transplantation	479
Heart Valve Disorders	483
Hypertension	486
Myocardial Infarction	492
Pericarditis and Cardiac Tamponade	496
Peripheral Artery Disease	499
Thromboembolism and Phlebitis	502

SECTION 7 Gastrointestinal Disorders

Overview of the Gastrointestinal System 506

Upper Gastrointestinal Tract Disorders

Dysphagia	511
Esophageal Disorders	516
Esophageal Varices	519
Esophagitis, Gastroesophageal Reflux, and Hiatal Hernia	521

Stomach Disorders

Dyspepsia, Indigestion, and Bezoar Formation	525
Gastrectomy and Vagotomy	527
Gastritis and Gastroenteritis	530
Gastroparesis and Gastric Retention	533
Giant Hypertrophic Gastritis and Ménétrier Disease	535
Peptic Ulcer Disease	537
Vomiting, Pernicious	543

Lower Gastrointestinal Tract Disorders

Carcinoid Syndrome	546
Celiac Disease and Gluten Intolerance	548
Constipation	553
Diarrhea, Dysentery, and Traveler's Diarrhea	557
Diverticular Diseases	562
Fat Malabsorption Syndrome	565
Inflammatory Bowel Disease: Crohn's Disease	569
Inflammatory Bowel Disease: Ulcerative Colitis	574
Intestinal Failure and Transplantation	577
Intestinal Fistula	581

Intestinal Lymphangiectasia	583
Irritable Bowel Syndrome	586
Lactose Maldigestion	589
Megacolon	593
Ostomy: Colostomy	596
Ostomy: Ileostomy	599
Peritonitis	602
Short Bowel Syndrome	604
Tropical Sprue	610
Whipple Disease (Intestinal Lipodystrophy)	612

Rectal Disorders

Fecal Incontinence	614
Hemorrhoids	618
Proctitis	620

SECTION 8 Hepatic, Pancreatic, and Biliary Disorders

Overview of Hepatic, Pancreatic, and Biliary Disorders 624

Hepatic Disorders

Alcoholic Liver Disease	627
Ascites and Chylous Ascites	631
Hepatitis	634
Hepatic Cirrhosis	638
Liver Failure, Encephalopathy, and Coma	645
Liver Transplantation	650
Nonalcoholic Fatty Liver Disease	655

Pancreatic Disorders

Pancreatic Insufficiency	658
Pancreatitis, Acute	661
Pancreatitis, Chronic	664
Pancreatic Transplantation	668
Zollinger-Ellison Syndrome (Gastrinoma)	671

Biliary Disorders

Cholangitis	674
Cholestasis	676
Gallbladder Disease	679

SECTION 9 Endocrine Disorders

Overview of Endocrine Disorders 685

Diabetes Mellitus

Gestational Diabetes Mellitus	696
Prediabetes	701
Type 1 Diabetes Mellitus	705
Type 2 Diabetes Mellitus in Adults	713
Type 2 Diabetes Mellitus in Children and Teens	724

Diabetes Complications and Related Conditions

Diabetic Gastroparesis	728
Diabetic Ketoacidosis	731

Hyperosmolar Hyperglycemic State	734
Hypoglycemia	737
Hypoglycemia With Hyperinsulinism	740
Metabolic Syndrome	743
Preeclampsia and Hypertension in Pregnancy	747

Pituitary, Ovary, and Adrenal Disorders

Acromegaly	750
Cushing Syndrome	752
Diabetes Insipidus	755
Hypopituitarism	757
Syndrome of Inappropriate Antidiuretic Hormone	760
Polycystic Ovarian Syndrome	763
Adrenocortical Insufficiency and Addison Disease	766
Hyperaldosteronism	770
Pheochromocytoma	772

Thyroid Disorders

Hyperthyroidism	775
Hypothyroidism	779
Hypoparathyroidism and Hypocalcemia	783
Hyperparathyroidism and Hypercalcemia	785

SECTION 10 Malnutrition: Overnutrition and Undernutrition

Overview of Malnutrition 790

Overnutrition, Overweight, and Obesity	798
Undernutrition	813
Malnutrition in Children and Adults	819
Refeeding Syndrome	827

SECTION 11 Musculoskeletal and Collagen Disorders

Overview of Rheumatic and Bone Disorders 832

Fibromyalgia and Polymyalgia Rheumatica	837
Gout	840
Immobilization	844
Lupus	847
Muscular Dystrophy	851
Osteoarthritis	856
Osteomyelitis	861
Osteomalacia	864
Osteopenia and Osteoporosis	867
Paget Disease (Osteitis Deformans)	873
Polyarteritis Nodosa	876
Rhabdomyolysis	878
Rheumatoid Arthritis	881
Ruptured Disk and Radiculopathy	888
Scleroderma and Systemic Sclerosis	890
Spondyloarthritis	894

SECTION 12 Hematology: Anemias and Blood Disorders**Overview of Blood and Anemias 898****Anemias**

Anemia of Inflammation	902
Anemias in Neonates	905
Anemia of Renal Disease	907
Aplastic Anemia and Pancytopenia	910
Copper-Deficiency Anemia	913
Folic Acid-Deficiency Anemia	917
Hemolytic Anemias	921
Iron-Deficiency Anemia	923
Malaria and Parasitic Anemias	929

Megaloblastic Anemias

Pernicious and Vitamin B12-Deficiency Anemias	933
---	-----

Hemoglobinopathies

Sickle Cell Disease	937
Sideroblastic Anemias	941
Thalassemias	943

Other Blood Disorders

Bleeding Disorders: Hemorrhage and Hemophilia	946
Hemochromatosis and Iron Overload	949
Polycythemia Vera	953
Thrombocytopenia	956

SECTION 13 Cancer**Overview of Cancer 960****General Cancer Types**

Bone Marrow or Hematopoietic Stem Cell Transplantation	975
Bone Cancers	979
Brain Tumors	982
Colorectal Cancer	985
Esophageal, Head and Neck, and Thyroid Cancers	991
Gastric Cancer	996
Liver Cancer	1000
Lung Cancers	1003
Pancreatic Cancer	1007
Skin Cancers	1010
Urinary Bladder and Renal Cancers	1014

Hormonal Cancers

Breast Cancer	1017
---------------	------

SECTION 14 Surgery and Nutrition Support**Overview of General Surgery Guidelines 1047**

Perioperative Nutrition	1050
-------------------------	------

Gastrointestinal Surgeries

Bariatric Surgery	1064
Bowel Surgeries	1070

Nutrition Support

Nutrition Support	1075
Enteral Nutrition	1079
Parenteral Nutrition	1087

SECTION 15 Immunology and Critical Care**Overview of Nutrition and Immunocompetence 1092**

AIDS and HIV Infection	1105
Burn Injury	1112
Fractures	1118
Intestinal Parasitic Infections	1122
Multiple Organ Dysfunction Syndrome	1127
Sepsis	1131
Trauma	1135

SECTION 16 Kidney Disorders**Overview of Kidney Disorders 1140**

Chronic Kidney Disease and Acute Kidney Injury	1144
Dialysis	1154
Glomerular and Autoimmune Kidney Diseases	1161
Glomerular Basement Membrane Disorders and Alport Syndrome	1164
Kidney Stones (Nephrolithiasis)	1167
Nephrotic Syndrome	1171
Renal Metabolic Disorders: Hypophosphatemic Rickets and Hartnup Disorder	1175
Polycystic Kidney Disease	1178
Kidney Transplantation	1180
Urinary Tract Infections	1186

APPENDIX A Basic Nutrition Principles, Nutrients, and Dietary Supplements

Ultra-Trace Minerals	1204
Less-Studied Ultra-Trace Minerals	1206
Vitamins	1207
Fat-Soluble Vitamins	1207
Water-Soluble Vitamins	1212
Probiotics, Prebiotics, and Synbiotics	1217
Antioxidants	1217
Dietary Supplements: Botanicals and Other Supplements	1221

APPENDIX**B****Nutrition Assessment
Tools and Forms**

Intake Records	1234
Nutrition Assessment and Documentation Forms	1235
Nutrition Focused Physical Examination and Micronutrient Deficiencies	1235
Calculation of Energy and Protein Requirements	1239
Biochemical Assessment	1239
Food–Nutrient–Drug Interactions	1250
Clinical Case Documentation	1252

APPENDIX**C****Culturally Sensitive and Inclusive
Nutrition Care, Education, and
Counseling**

Understanding Cultural Humility and Competence	1254
Practice-Based Cultural Humility and Competence	1254
Culturally Sensitive and Inclusive Nutrition Care and Counseling	1256
Nutrition Education and Counseling	1261

APPENDIX**D****The Practice of Nutrition
and Dietetics: Nutrition Services
and Management**

The Practice of Nutrition and Dietetics	1268
Role Definition	1268
Standards of Practice and Standards of Professional Performance	1268
External Standards and Regulations for Safe Practice	1268
Scope of Practice	1268
Nutrition Care Process	1268
Interprofessional Collaboration	1271
Medical Nutrition Therapy and Reimbursement for Services	1271
Continuum of Care	1271
Research and Evidence-Based Practice	1271
Medical Classification Systems	1272
Accountability	1272
Competence and Autonomy	1273
Order-Writing Privileges	1275
Excellence in Practice	1275
Technology	1275
Client Satisfaction	1275
Business and Nutrition Services Management	1276
Consulting and Private Practice	1276
